

## SAFETY DATA SHEET

Product identifier	Section 1. Product Identification
r rouuct identifier	Dynaplast® Base Alpha, Dynaplast® Alpha Q/S, Dynaplast® Alpha Q/S Buff,
	Dynaplast® HS, Dynaplast® FS, Dynaplast® GRG Gypsum Cement, Dynaplast® GRG
	XL, Dynaplast® OCG 60, Dynaplast® OCG 120, Dynaplast® DS712, Dynaplast®
	DS712 Buff, DynaPlast® EZ White, DynaPlast® Orthopedic Alpha POP 13-18,
	DynaPlast® Ortho POP 4-8.
Other means of identification	
SDS number	ACG 2001
Additional Products	Pottery Plaster, Moulding Plaster, Moulding Plaster S/S, 15 min Moulding Plaster, 20
	min Moulding Plaster, 30 min Moulding Plaster, Quick-Set Plaster of Paris, Slow-Set
	Plaster of Paris, Lab Dental Plaster Q/S, and Dental Plaster 1530.
Synonyms	Plaster of Paris
Recommended use	Industrial use applications, Ceramics, and modeling.
Recommended Restrictions	Use in accordance with manufacturer's recommendations.
Manufacturer/Importer/Supplie	
Company name	Arcosa Specialty Materials
Address	1550 Double Drive
<b>T</b> 1 1	Norman, OK 73069
Telephone Wabaita	1-800-624-5963
Website	www.ACGmaterials.com
Emergency phone number	1-800-624-5963
	Section 2. Hazard(s) Identification
<b>Emergency Overview</b>	This product is not flammable, combustible, or explosive. It does not cause burns or severe skin
	or eye irritation. A single exposure will not result in serious adverse health effect. Prolonged
	contact with the product may result in abrasions to the skin or irritation of the eyes. Prolonged
	inhalation of the dust may irritate the respiratory tract.
Physical hazards	Not classified
Health Hazards	Not classified
Acute:	Contact can cause mechanical irritation of eyes. If burning, redness, itching, pain or other
Eyes	symptoms persist or develop, consult physician. Eye irritation Category 2, subcategory 2B.
Skin	This material hardens and slowly become shot when mixed with water. However, direct
5km	prolonged or repeated contact with the skin may cause irritation. Rubbing of this product
	against the skin can result in abrasions. Rinse with water until free of material to avoid
	abrasions, and then wash skin thoroughly with mild soap and water. May dry skin. Mild Skin
	Irritation Category B.
	Inhalation of dusts from this product may irritate the nose, throat, lungs, and upper respiratory
	tract. Persons exposed to large amounts of this dust may be forced to leave area because of
	nuisance conditions such as coughing, sneezing, and nasal irritation. Labored breathing may
	occur after excessive inhalation. If respiratory symptoms persist, consult physician.
Ingestion	Harmful if swallowed. Plaster of Paris is non-toxic, however, ingestion of a sufficient quantity
8	could lead to mechanical obstruction of the gut, especially the pyloric region. See Section 4.
Chronic:	
Inhalation	Gypsum displays no specific toxic properties. Prolonged and repeated exposure to respirable
	crystalline silica can result in lung disease (i.e. silicosis) and lung cancer. Silicosis increases the
	risk of tuberculosis. Studies have shown various autoimmune and chronic kidney diseases in
	workers exposed to respirable crystalline silica. Some studies show and increased incidence of
	chronic bronchitis and emphysema in workers exposed to crystalline silica.
Skin	Dermatitis.

**Environmental hazards** Not Classified. **OSHA** defined hazards Not Classified. Label elements Signal word Danger Hazard statement Harmful if swallowed. Causes eye and skin irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. **Precautionary statement** Prevention Avoid breathing dust. Wash hands thoroughly after handling. Wear protective gloves. Wear respriatory protection. Do not eat, drink, or smoke when using this product. Contact lenses should not be worn while working with Plaster of Paris. If eye irritation persists, if skin irritation occurs, or if experiencing respiratory symptoms: Get Response medical advice/attention. If swallowed: Call a doctor if you feel unwell. Store as inidated in Section 7. Storage Dispose of in accordance with local, state, and federal regulations. Disposal Hazard(s) not otherwise None known. classified (HNOC)

Section 3. Composition/Information on Ingredients			
Mixtures			
Chemical name	CAS number	%	
Calcium Sulfate Hemihydrate	26499-65-0	>95	
(Plaster of Paris)			
Silicon Dioxide (Crystalline Silica)	14808-60-7	<0.025	

**Composition comments** 

All concentrations are in percent by weight unless ingredient is a gas.

	Section 4. First-Aid Measures
Eye contact	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and
	easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Skin contact	If on skin: Wash with plenty of water/mild soap and water. Specific treatment: see supplemental
	first aid instruction on label. If skin irritation occurs: Get medical advice/attention. Take off
	contaminated clothing and wash it before reuse.
Inhalation	If inhaled: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.
	If experiencing respiratory symptoms: Call a doctor.
Ingestion	If swallowed: Call a doctor if you feel unwell. Rinse mouth. Unlikely to occur, but may cause
	gastric disturbances if swallowed. Plaster of Paris is non-toxic; however, ingestion of a sufficient
	quantity could lead to mechanical obstruction of the gut, especially the pyloric region. Get medical
	attention immediately. The use of diluents is controversial and neutralization is contraindicated.
Target Organs:	Eyes, skin and respiratory system.
Medical Conditions which	Pre-existing upper respiratory and lung diseases such as, but not limited to, bronchitis, emphysema,
may be aggravated	and asthma.
Primary Routes of entry:	Inhalation, eyes and/or skin contact, ingestion.

**Respiratory protection** None required where adequate ventilation conditions exist. A NIOSH approved dust mask or filtering face piece is recommended in poorly ventilated areas or when permissible exposure limits may be exceeded. Consult with respirator manufacturer to determine respirator selection, use, and limitations.

Section 10. Chemical Stability and Reactivity
Reacts with water and produces large amounts of heat (normal condition of use).
Stable at normal storage conditions and temperature.
Water, high humidity, and acids.
Stable at normal storage conditions and temperature.
None known.

## Section 11. Toxicological Information

Information on likely routes of exposure

Acute effects	The acute oral toxicity study [OECD TG 420] of calcium sulfate dihydrate showed that this chemical did not cause any changes and there was no evidence of germ cell mutagenicity.
Chronic effects	Crystalline Silica: Exposures to respirable crystalline silica are not expected during the normal use of this product; however, levels must be determined by in-house workplace hygiene testing.

## Section 12. Ecological Information

**Ecotoxicity** 

There are no known causes from this product that would harm the Ecology.

Section 13 Disposal Considerations		
	Dispose of material in accordance with all applicable federal, state and local regulations. Can be disposed as an inert solid in a landfill. Slurry may plug drains. Do not dispose of directly in waterways or sewers.
